DESCRIPTION

Capture the timeless beauty of aged architecture with Tableau, a striking wallcovering inspired by the weathered elegance of Old-World concrete walls. Printed on durable Type II performance vinyl, Tableau combines the raw, industrial charm of distressed surfaces with modern resilience, making it ideal for high-traffic residential and commercial interiors. Rich in depth and character, this design features subtle tonal variations, organic imperfections, and an aesthetic that mimics the authentic patina of aged plaster and concrete. The result is a sophisticated, lived-in aesthetic that adds warmth and artistry to your walls and ceilings.
