A Breath of Fresh Air

Fabulous furnishings and accessories for sprucing up outdoor spaces

MOD LIGHTWEIGHT

Kettal's Maia Collection, created by award-winning designer Patricia Urquiola, is an industrial reinterpretation of traditional weaving. With high-tech fibers worked around broad aluminum structures, each piece is a weightless, modern creation that is heavy on detail and appeal. (786) 552-9002, kettal.com

MOTHER NATURE'S NEW NEMESIS

Perennials tapped into the creative talents of Liz Galbraith and Ephraim Paul for its latest outdoor fabric collection. With striking patterns and varied palettes, the husband and wife duo puts a playful twist on nature's treasures such as vines, bird tracks and sunflowers to create fresh, beautiful fabrics. (888) 322-4773, perennialfabrics.com

ECLECTIC ELECTRIC

Fuego continues its modernist rethink of outdoor living with the Fuego 02 Electric. The sleek, flameless grill plugs into a standard 110-volt outlet and is ideal for those who want to cook in style but are limited by space and safety regulations. Priced from \$1,950. (800) 782-1852, fuegoiliving.com
