HOME FRONT TRENDS!

PRINTED MATTERS!

Say goodbye to simple solids and humdrum Hawaiian prints. This season manufacturers are presenting stylish weather-resistant upholstery that rivals any posh indoor-only option. New York designer Sina Pearson freshens up the traditional cabana stripe with Oasis, a two pattern collection chock full of irregular bands of juicy color. Robert Allen's new AllFresco Fusion also tantalizes the décor taste buds with large-scale geometric designs in earthy hues. Dallas-based showrooms Allan Knight & Associates and David Sutherland take a more modern stand from graphic inspired styles to custom poolside umbrellas in eye-popping patterns. ■
