Editor's Tips

HOW TO CREATE AN INVITING BREAKFAST NOOK

Build a banquette. "Make every inch count with an L-shaped bench," says Jessica. "Mine is made of MDF with tongue-and-groove paneling for dimension."

Make it comfy. "I use outdoor fabrics inside because they're so easy to clean and resist stains and spills," she says. "And I pile on the pillows." (She has 10 here!)

Add overscale accents. A large piece of art and an industrial light from Schoolhouse Electric & Supply Co. offer impact in a small space.

Sneak in extra storage. Add a flip-top lid to the seats with piano hinges. "We store everything from holiday decor to extra rolls of paper towels in there," says Jessica. "It's so handy."
